

P form entry and other functions of
P form user account

Learning Objectives

1. How to Fill in case details of Presumptive Cases using P form (Add Patient Record)
2. How to add details of Deaths using P form (Add Death Record)
3. How to record Aggregate data using P form
4. How to fill in Event Alert form
5. Reports & View Map

- For Factual data entry, type or copy-paste <https://ihip.nhp.gov.in/idsp/#!/login> in URL in the web browser
- Here, for demonstration purpose, we will be using Training / Learning Platform which is <http://ihiptraining.in/idsp/#!/login>

First we will see P form

- First we will see P form through which details of all the Presumptive cases of 33+ diseases as identified in IDSP (and all syndromes as well) can be updated
- It will also cover how to report the death of a presumptive case
- and lastly, using the “Record Aggregate Data” for 4 conditions

Click on "Forms" and then
click on "Presumptive Cases Form"

P Form (Presumptive Cases Form)

Record Aggregate Data

🔔 Data should be collected in a disaggregated manner only; in rare circumstances with permission from DSO only, the aggregate data can be collected

	Number of cases of illness							Number of cases of deaths		
	Male			Female			Grand Total	Male	Female	Total Death
	<= 5 Yr	> 5 Yr	Total	<= 5 Yr	> 5 Yr	Total				
Only Fever < 7 days	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Animal Bite - Others	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Acute Diarrhoeal Disease	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Cough > 2 weeks with fever	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Reset

Save

As shown in the message below, use P form for entering case based data only; aggregate data can be collected only in rare situations with permission from DSO for these 4 Syndromes only

Data entry through "Record Aggregate Data" is usually not encouraged as data on important epidemiological characteristics is lost

11:57

03/03/2019

- Now we will see how a P form account user or Health Facility (PHC or higher) Account user can flag an event through “Event Alert Form”

Click on "Forms" and then

Presumptive Cases Form

Event Alert Form

Joint monitoring mission – IDSP

Recent monitoring and evaluation of the national disease surveillance programme, IDSP has highlighted that investment into surveillance, laboratories, data analysis and information systems

Disease reprioritization workshop IDSP

Workshop on reprioritization of diseases under IDSP was organized in collaboration with MoHFW, NCDC and CDC, India Office from 6-7 December 2016 in New Delhi.

Influenza strengthening workshop

A workshop on strengthening Influenza Surveillance was held in Delhi from 4-6 October 2016 in collaboration with Ministry of Health & Family Welfare (MoHFW),

Surveillance standards IDSP

WHO supported the finalization surveillance standards (Minimum Datasets) for diseases under IDSP which were organized in collaboration with NCDC
